Invoice

The screenshot shows the NetBeans IDE interface for the 'AlertSystem' project. The main editor displays the 'TaskAlertControllerTest.java' file. The code includes a test method 'testStatusAccordingDays25' that creates a 'TaskAlertController' instance and tests its 'statusAccordingDays' method. The Test Results window shows the following results:

Test Name	Result
ec.edu.espermavenproject1.jar:1.0-SNAPSHOT (Unit)	Tests passed: 12.00 %
utils.TaskAlertControllerTest	Failed
testStatusAccordingDays10	Failed: ex
testStatusAccordingDays13	Failed: ex
testStatusAccordingDays15	Failed: ex
testStatusAccordingDays19	Failed: ex
testStatusAccordingDays21	Failed: ex
testStatusAccordingDays27	Failed: ex
testStatusAccordingDays29	Failed: ex
testStatusAccordingDays31	Failed: ex
testStatusAccordingDays33	Failed: ex

Alerts

The screenshot shows the NetBeans IDE interface for the 'AlertSystem' project. The main editor displays the 'InvoiceControllerTest.java' file. The code includes a test method 'testDebtCustomer21' that creates a list of invoices and tests the 'debtCustomer' method of the 'InvoiceController'. The Test Results window shows the following results:

Test Name	Result
ec.edu.espermavenproject1.jar:1.0-SNAPSHOT (Unit)	Tests passed: 8.00 %
utils.InvoiceControllerTest	Failed
testDebtCustomer11	Failed: expecte
testDebtCustomer13	Failed: expecte
testDebtCustomer15	Failed: expecte
testDebtCustomer17	Failed: expecte
testDebtCustomer19	Failed: expecte
testDebtCustomer21	Failed: expecte
testDebtCustomer23	Failed: expecte
testDebtCustomer25	Failed: expecte
testDebtCustomer31	Failed: expecte
