The image shows a hand-drawn wireframe of a photo assignment application interface. The interface is divided into two main panels. The left panel, titled "Asignamiento de fotógrafos", contains a list of photographers (Miguel García, Lina Antón, Alexis Fares, Paola Plaza) with checkboxes, a "Ver detalles" button, and a "Guardar" button. The right panel, titled "Asignamiento de Fotos", contains a list of photos (Miguel García, Lina Antón, Alexis Fares, Paola Plaza) with checkboxes, a "Ver detalles" button, and a "Guardar" button. The interface also includes a top navigation bar with "D", "M", and "A" buttons, and a bottom navigation bar with "Eliminar", "Guardar", and "Cancelar" buttons.

Hand-drawn mockup of a Java Swing window titled "Busqueda de Eventos por Mes". The window contains the following elements:

- A title bar with standard window controls (minimize, maximize, close).
- A header area with the text "Eventos Por Fecha".
- A label "Seleccione el año" followed by a text field containing "2025" and a spinner control.
- A label "Selección el mes" followed by a list box containing "diciembre", "mayo", "junio", "julio", and "agosto". Each item in the list box has a small spinner control to its right.
- A "Buscar" button at the bottom.
